Professional Summary

Motivated BCA graduate with hands-on experience in Artificial Intelligence, Machine Learning, Python, and data analysis. Experienced in building AI-powered web applications using Flask, NLP, TF-IDF, Random Forest, and Scikit-Learn. Passionate about developing intelligent solutions, data-driven decision making, and continuously learning modern AI technologies.

Education

Bachelor of Computer Applications (BCA)

Udupi College of Professional Studies - Manipal

2023 - 2026

Internship

Artificial Intelligence Intern

Manipal Skill Development Centre (MSDC)

July 2026

- Worked on AI and Machine Learning models for data analysis and prediction.
- Performed data preprocessing, cleaning, and visualization using Python.
- Applied NumPy, Pandas, and Scikit-Learn to build ML workflows.
- Improved understanding of model development and evaluation.

Projects

AI Resume Analyzer & Job Matcher

- Built an AI-powered Resume Analyzer and Job Matcher using Flask and Machine Learning.
- Extracted text from PDF/DOCX resumes and generated ATS-style resume scores.
- Recommended matching jobs and identified missing skills from job descriptions.
- Implemented TF-IDF, Random Forest, Cosine Similarity, and NLP for resume classification.
- Developed an AI chatbot, skill-gap visualization, and personalized resume improvement suggestions.

Technical Skills

Programming: Python, Java, C

AI/ML: Machine Learning, NumPy, Pandas, Scikit-Learn, NLP, TF-IDF, Random Forest

Web: HTML, CSS, JavaScript, Flask

Tools: Git, GitHub, VS Code, Jupyter Notebook

Other: Data Analysis, Problem Solving, Data Visualization

Certifications

- AI/ML Internship – Manipal Skill Development Centre (MSDC)
- Office Management (MS Windows, MS Word, MS Excel) – Manipal Career Education (MCE)
